to me

Hi Cheryl,

For this past month I have 2 reports.

One on Jan. 27th where a woman on Half Circle Drive found 2 stray dogs. She was able to contain them until I arrived. Upon arrival we discovered a phone number on one of the dogs collars and we were able to locate and reunite the owners. The finder also reported a stray cat she had been taking care of since early last year. No owner has come forward yet.

On Feb. 4th I received a report of a stray dog picked up on Taghkanic Rd. The finders had taken the dog back home and located a microchip number on the collar. Using the number I was able to locate the owner and reunite her with the dog.

Sorry for the late report.
