

I have 2 entries for this past month.

On 2/26 I received a report of an old yellow lab found on Rt. 82 in Taghkanic. The finder contacted the state troopers who picked the dog up and transported it to the Livingston dog control officer by mistake. Thankfully the Livingston dog control officer knew the dog and reunited it with its owners the following day.

On 2/28 I received a call from a state trooper about a found dog on Taghkanic Rd. The original finders had contacted the troopers about the dog and the trooper was willing to transport the dog to me. Shortly after taking possession of the dog I was able to locate the owner and get the dog back home.
