

Taghkanic CAC Meeting, October 20, 2016

Present: Anna Kadish, Valerie Hoffman, Charlene Paden, Frost White, Leslie Chambers, Larry Kadish

Frost White and Leslie Chambers came to the meeting as potential new members of our CAC. This must be approved by Taghkanic Town Board in the coming weeks.

Summaries of the Planning Board meeting and the Public town meeting about the plans for a gas station and a Dunkin Donuts on County Rte 18 were presented.

We discussed possible future lectures for the town: First, the cancelled talk about wild turkeys must be rescheduled. A talk about black bears which seem to be increasing in number in our area would be interest. We need to identify a speaker on that subject.

We discussed future walks in town. Suggestions included a walk on Sam Pratt's property, the Kadish property and also a possible walk on a property near Frost White's home. Further possibilities will be considered. Walks will most likely be in late April, early May and another walk in September. These have to be scheduled.

We discussed the grant for production of a Columbia County NRI (Natural Resource Inventory) obtained by the CLC. Future information will be presented when available.

Next CAC meeting will be on November 17, 2016
