

## Minutes of the Meeting of the Taghkanic CAC

June 20, 2019

The meeting was attended by: Tony LaSalvia, Anna Kadish, Larry Kadish, Valerie Hoffman, Zita Kobos, Moisha Blechman, Joyce Thompson, and Agnes LaSalvia

We discussed several items to be presented to the TGazette for future publication. They are Tips to Cut Down on Carbon Emissions by Individuals, Climate Change Part 1, Road Salt and an invitation for public questions to the CAC.

We discussed the Taghkanic Creek Headwaters Study presented by Christine Vanderlan of the CCL. We unanimously supported this effort and how we would volunteer where needed.

We discussed a paper written by Moisha to be presented to the Zoning Commission on Water in Taghkanic.

We discussed the possibility of having a small budget for use on future walks and talks.

We discussed the Vehicle Charger issue for the Town's Energy Smart Community applications. It appears that the timing of this will be a problem to make our September deadline. Alternatives for the fourth requirement was discussed and the town garage wind power commitment may be a possibility.

The meeting ended early so that members could attend the viewing of "The Serengeti Rules" Presented at TSL in Hudson.
