

Hi Cheryl,

Although we have not a formal CAC meeting we did agree to join Hillsdale and other surrounding towns in producing a brochure that will hopefully be distributed by Realtors in the area to their prospective buyers for the purpose of considering how they may develop their properties with keeping the natural beauty and environmental health that makes Columbia County so attractive, in mind. This was brought to our attention by Gretchen Stevens of the Hillsdale CAC. We will be watching for updates on this and have a say in the final approval of the brochure.

In other news, Larry and Anna Kadish and myself are still working with the towns of Hillsdale, Copale, and Claverack along with the Columbia Land Conservancy on the Taghkanic Watershed Connectivity Project which I have mentioned earlier. We hope to have some results in the fall of 2021. We will keep you posted.

Thanks,

Tony
