Dear chairman Skoda and board members,

The ZBA held a meeting on March 27th at the town hall. T Mobile has handed in a application for a co location on the existing cell tower on sopak Rd. A public hearing has been scheduled for April 24th 7:10 p.m. at the town hall. Per Bloumquist asked for a variance on a piece of property on pumpkin hollow Rd to build a new home. After a site visit and the discussion the board determined that his lot falls under VI(G)(1)(c) section in the zoning code for existing undersized lots and does not need a variance .

Respectfully submitted,
Jim Romaine
